## Experience

### Web Developer | TEKsystems | Apr 2021 - Present

- Built and styled Sitecore page and branch templates for new page types, utilizing HTML, CSS/SASS, and Sitecore tools. Followed Adobe XD and PDF mockups provided by the design team.
- Expanded the Web team's component guide, providing technical documentation and instructions for using existing site components, style selections in Sitecore, and templated HTML/HTML5 and CSS.
- Trained and provided manuals for EMEA and APAC content managers adding and editing article content.
- Enhanced Node.js package and Gulpfile.js for building stylesheets.
- Continued performing and maintaining the tasks and projects I began working on in my previous role as Sitecore Administrator.
- Help provide technical communication between the marketing web team and the technical development team.
- Support department's creative team with setting up and styling email templates in Salesforce Marketing Cloud based on PDF and Adobe XD mockups.

### Senior Proposal Writer | TEKsystems | May 2023 - July 2023

- Created clear and concise proposals and instruction documents for technical and non-technical audiences, facilitating effective communication across various roles and industries.
- Managed the proposal process for sales teams globally from kick-off through submission.
- Provided content for the proposal team's content database.
- Peer-reviewed and copyedited teammates' proposal drafts for quality assurance.

### Sitecore Administrator/Front End Development | TEKsystems | May 2019 - Apr 2021

- While I was still employed full-time as a proposal writer aligned with the TEKsystems marketing department, I reached out to the web team seeking opportunities to use the knowledge gained through earning my CIS degree

and through my marketing website experience. I performed this role alongside my assigned role on the proposal team, maintaining quality work product across both roles.

- Built and styled Sitecore Forms components using CSS, migrating from WFFM to Sitecore Forms.
- Developed and styled new web pages in Sitecore using SCORE components, HTML, CSS, and Bootstrap.
- Published content on international websites, collaborating with content managers in EMEA and APAC markets.
- Reviewed, documented, and updated alt text for images in Sitecore image library to align with SEO and accessibility best practices.
- Contributed to the TEKsystems.com codebase using Git for merge and deployment.
- Used Adobe Photoshop and Illustrator to crop, format, and optimize images for the website.

#### Proposal Writer | TEKsystems | Nov 2016 - Apr 2021

- Created clear and concise proposals and instruction documents for technical and non-technical audiences, facilitating effective communication across various roles and industries.
- Managed the proposal process for sales teams globally from kick-off through submission.
- Provided content and technical support for the proposal team's content database, SharePoint site, and bid submission and tracking system. Also served as a liaison between the proposal team and the in-house SharePoint development team to refine our bid submission and tracking system.
- Peer-reviewed and copyedited teammates' proposal drafts for quality assurance.

#### Proposal Writer/Marketing Coordinator | J.A. Rice, Inc. | Apr 2012 - Aug 2016

- Updated company website on WordPress, served as a main point of contact for marketing emails, and coordinated corporate rebranding.
- Created proposals and instruction documents for technical and non-technical audiences, facilitating communication across roles and industries. Administered contracts and served as first point of contact.
- Configured and troubleshooted common office software for myself and other members of the team, sometimes assisting our IT person when busy.
- Wrote and copyedited new website and marketing content.
- Used Adobe Photoshop and Illustrator to crop, format, and optimize images for the website.
- Supported executive and project staff in a woman-owned professional land surveying firm.

#### Regulatory Affairs/Marketing Assistant | Advanced Biotechnologies Inc | Sep 2008 - Jan 2011

- Created and edited scientific and administrative documentation including collaborating with the scientific staff to develop and update SOPs.
- Developed and posted content for the company website using Drupal.
- Maintained the marketing department wiki on the company intranet.
- Supported regulatory, scientific, and executive staff in a biotechnology firm.
- Coordinated redesign and printed company product catalog and marketing materials.

### Education

#### Bachelor of Science (BS), Computer Information Systems | Stevenson University | 2015 - 2018

- Focus on software development and design.
- Graduated with honors (GPA 3.78).

#### Bachelor of Arts (BA), English Language and Literature | Stevenson University (Villa Julie College) | 2002 - 2006

- Most extracurricular campus activities were web-focused and included: webmaster for local chapter of English honor society, online editor for school newspaper's website, and co-op participation with the Web office to help maintain the school website. Also contributed to the school newspaper and literary magazine.
- Graduated with honors (GPA 3.68).
